Data Science	R
Operating System:	Windows, Linux (Fedora)

CERTIFICATION

- Microstrategy Certified Project Designer (CPD) Version 9.4.1
- Microstrategy Certified Report Developer (CRD) Version 9.4.1

PROFESSIONAL EXPERIENCE

LARSEN & TOUBRO INFOTECH , Mumbai, India Software Engineer, Client: Citibank (U.K.)	Sep. 2014 - Jul. 2016
---	-----------------------

- Single point of contact (SPOC) for end to end integration projects, which includes Requirement Analysis and Query resolution.
- Facilitated communication between external and internal parties.
- Managed timelines for process integration and creating relevant reports and documents in Microstrategy.
- Designed schema and creating Facts, Attributes, Filters and Prompts.
- Provided and managed access privileges for the client.
- Provided customer support for the application.
- Worked on Very large database properties for performance tuning.
- Executed scripts in command manager.

INTELLISWIFT SOFTWARE INDIA PVT LTD. , Mumbai, India Software Developer	May. 2013 - Sep. 2014
---	-----------------------

- Analyzed client requirement and interconnected with team members for converting functional requisites into technical resources for desired implementation and results.
- Created Microstrategy reports including Sales Comparison Report. Reports included view filters, report limits on the data and featured subscriptions of reports via Email.
- Executed the report data manipulations using various options including data pivoting, page by, sorting, totals, threshold.
- Communicated with team members to clarify the functional requirements and transfer them into technical requirements.

PROJECTS

Movie Ticket Booking System

- It is a console based application with front end as Java and JavaFx while back end used is MySQL database.
- There are two types of users Admin and Cashier, admin would be adding movies, updating shows while cashier would book and cancel ticket.

Cicero Coffee Corner Database

- Interacting with the client and understanding the requirement.
- Step wise designing the Conceptual model, logical model then physical model.
- The database was developed in Oracle.
- Then based on the data some analytical reports were generated which helped the client in taking decision.

AWARDS & ACTIVITIES

- Awarded Certification for Team performance at L&T Infotech on LRR project Dec. 2015
- Presented a qualifying position in 'L1 Robotics (Burnout)' in IEEE festival (200x) Dec. 2008
